This document is an advising guide; it is not a substitute for meeting with an adviser. Students should meet with their adviser quarterly. The final responsibility for completing graduation requirements rests with the student. Program requirements are subject to change without notice.

Additional Information

- Only grades of "C-" or above may be used in completing business courses AND including ECON 1020, ECON 1030, STAT 1300, STAT 1400 and MATH 1200 (or MATH 1951).
- Repeated courses count toward the GPA calculation but not toward overall hours.
- A minimum average GPA of 2.0 is required for all major course work, all business course work, and the overall cumulative GPA in order to graduate.
- DCB Check Point 2 requires completion of SI-Natural and FOLA sequences, or two years of FOLA. Please note that both the FOLA sequence and the SI-Natural sequence must be completed as graduation requirements.
- Students who successfully test *beyond* the first year of FOLA must take 4 hours of 2000 or 3000 level course work for the language into which they place or, take a 12 quarter-hour first-year sequence in a different language to complete the requirement.
- Microsoft Certification (MOS) requires standard levels of proficiency in Excel, Word, and PowerPoint; it is both a DCB 1 requirement and a graduation requirement.
- Elective credits may be applied toward a minor within or outside Daniels (other than general business minor), a second major, or fulfilled through course work from any campus unit(s) with the exception of The Women's College and University College.
- At least 50% of required business courses for undergraduate business degrees (majors and minors) must be completed at the Daniels College of Business.

International Experience

Business students must be prepared to interact with persons from other cultures and to manage in circumstances where business practices and social conventions are different from the graduate's native country. To meet this requirement, all students must fulfill an international experience before they can graduate as a business major. Participating in the Cherrington Global Scholars program will satisfy this requirement; otherwise the requirement must be met via a Daniels College of Business course that covers global content. See an adviser for details. Note: International students meet this requirement by virtue of studying at DU.
