### Notes

1. Entering MAcc students must demonstrate competency in four prerequisite courses in order to complete the MAcc in 40 credit hours. Students may be admitted to the program before the prerequisites are met. In this case, students take the prerequisite courses as they complete the MAcc program and the student’s degree plan may range from 40-56 credit hours.

Students meet the competency requirement by passing the prerequisite courses in an AACSB accredited program. Students who believe they have competency in these areas through other means should consult with the program director.

For detailed academic policy information, refer to Graduate Student Handbook. An overall GPA of 3.0 and an accounting GPA of 3.0 are required for graduation. Electives must be graduate (4XXX-level) courses.

Program requirements are subject to change without notice.
