

## CHRISTINA SKIPPER

*Master's in Finance '21*

Private Wealth Advisor  
Associate, Morgan Stanley

I was surprised and thankful for the University's willingness to work with me directly on my own path—one of the best qualities of the program is that I was able to ensure that the classes I took and curriculum were most applicable to my own career.

I enjoyed being able to meet with my professors at any time and the one-on-one learning environment that allowed me to succeed in challenging areas of the curriculum. For me, I would not choose any other university for my master's.

There were many opportunities to get in front of employers while attending DU, and Daniels does an amazing job utilizing alumni to help current students get great jobs while or after attending.

# WEALTH MANAGEMENT TRACK

Interested in working in the rapidly growing area of wealth management? Students in this track have opportunities from a wide range of applicable classes. As wealth managers can have an asset management focus or work directly with either business clients or families on financial goals, students can customize the track with business finance classes, investments classes or classes focused on capital markets. You can also take analytics or accounting classes to accommodate your special interests in this rapidly developing field.

*Elective courses you can take  
as part of this track include:*

**FIN 4320**

Equity Analysis

**FIN 4330**

Portfolio Management & Risk Analysis

**FIN 4700**

Topics: Financial Planning over the Life Cycle

**FIN 4700**

Topics: Wealth Management

*Students can also choose from a range of other finance electives. You'll work with an advisor to build a course plan that matches your career goals.*

**Daniels College of Business**  
UNIVERSITY OF DENVER
