

ANUSHA PATNI

Master's in Finance '19

Net Revenue Analyst II,
CHRISTUS Health

This degree is for anyone and everyone who's interested in finance, whether they want to go into corporate finance, investment banking, mergers and acquisitions or anything else. With so many different electives to choose from based on your interests, you will get all the skills and knowledge you need to succeed in your career.

I was surprised by the level of relevant courses that were a part of the program to prepare us for the outside world. I was so thankful for classes like the Financial Modeling and Database Bootcamp when I started working as an analyst after graduation because that was a skill I would never have known I even needed!

BUSINESS FINANCE TRACK

Focus on corporate finance, financial planning and analysis, treasury management, or nonprofit financial management in the business finance track. Students in this track can choose an array of applicable courses including financial planning and analysis, financial modeling, sustainable finance, and fixed income analysis. Some also customize by taking courses in investment banking, as they're linked to the market interface with the corporation's capital needs.

*Elective courses you can take
as part of this track include:*

ACTG 4220

Financial Accounting and Analysis

FIN 4150

Advanced Business Valuation

FIN 4160

Treasury Management

FIN 4420

Capital Expenditure Analysis

FIN 4870

Strategic Finance

FIN 4885

Investment Banking & External Financing

FIN 4860

Derivatives

Students can also choose from a range of other finance electives. You'll work with an advisor to build a course plan that matches your career goals.
