- Please consult the course sequence guide for projected terms for INFO course offerings.
- A minor GPA of 2.00 or higher is required to graduate.
- Only grades of "C-" or higher fulfill minor requirements.
- Any minor course substitutions must be preapproved by the Faculty Lead for the Supply Chain minor.

Supply Chain Minor Course Requirements

Supply Chain Management focuses on the planning, coordination, and movement of goods, services, and information from suppliers to customers. Students completing this minor develop analytical and problem-solving skills that help organizations improve efficiency, reduce costs, and respond to an increasingly complex global marketplace. The knowledge and practical experience gained through this minor can be a valuable asset to employers across a wide range of industries.

Students interested in pursuing an internship related to supply chain should reach out to Daniels Career Services and Prof. Buffington as early as possible to explore internship placements in the summer after sophomore or junior year.

Requirements for Business Analytics majors: 16 total credits

Business Analytics majors will count INFO 3140 and INFO 3440 toward the Supply Chain Management minor. In place of these courses for the Business Analytics major, students will complete 8 credits of approved major electives, to ensure they are earning the minimum 44 credits required for the Business Analytics major.
